NBC CORPORATE SOCIAL RESPONSIVENESS

The current social impact actions are attributable to: ProjectUp, LiftZones, Comcast RISE, Diversity in the Workplace, Heritage.

Current organizational model of the company:: Centralized.

Presence on **social network**: Instagram, Facebook, Twitter, LinkedIn, TikTok, Youtube.

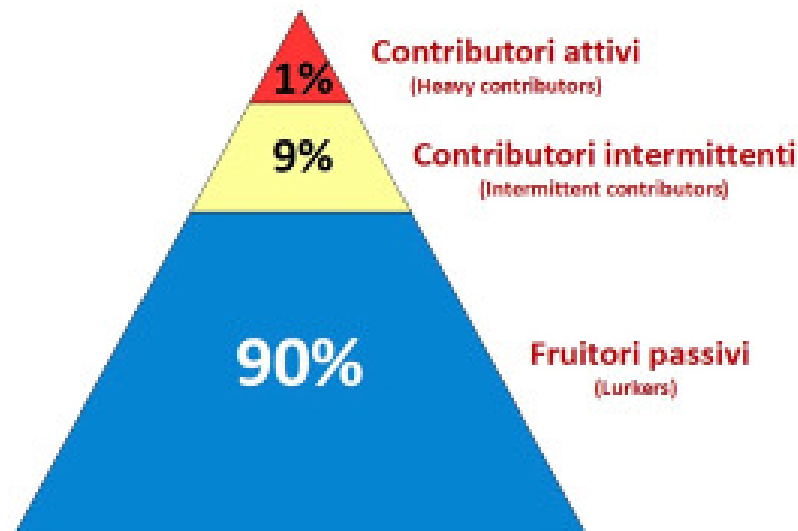

How does NBC communicate, to the corporate level, with investors? There is no financial part dedicated to investors on the site, but information relating to financial trends can be found online. There is a part on the site containing company news, which is open to the public.

2.1 DIGITAL CORPORATE COMMUNICATION

Online corporate communication of NBC

We found that the type of communication can be relatable with the sounding board. NBC is active on the various platforms (Facebook, Instagram, Twitter, TikTok), producing multiple contents.

in particular

Numbers of instagram's followers

NBC = 1.1MLN

Lurkers = 990.000

Intermitent contributors = 99.000

Heavy contributors = 11.000

Type of community around the company: community of interest, based on participation around content of interest.

3. TARGET

We started from NBC Store's current target market, which is made up to 12.5% women aged between 22-30 and 12.5% women aged between 35-50. Furthermore, 56% is made up of women and men distributed in a balanced way.

NBC has explicitly asked us to contact:

- tourists (American and foreign) from New York for the physical shop;
- fans and non-fans from home.

For a more in-depth analysis, we used different tools to visualize the data related to the composition of the target.

The NBC Store audience is composed by 53.17% female and 46.83% male.

the broader group age is 25-34 years old

Fonte: Similarweb

With this data we have decided to focus our attention on two age groups coherent with the products offered by the NBC Store.

Specifically, we are referring to young people aged between 14-15 and adults aged between 25-50

We have defined a type of buyer personas for each of the two bands.

YOUNG PEOPLE (14-25)

INCOME	MEDIUM-LOW (HOWEVER, IF DEPENDENT ON PARENTS, THEIR SPENDING CAPACITY COULD BE ABOVE AVERAGE)
VALUES	FUN, SENSITIVITY TO CURRENT ISSUES (ECOLOGY, POLITICS) BUT WITH A LOW INVOLVEMENT
UTENZA DEI MEZZI	THE EXPOSURE TO ADVERTISING IS MEDIUM-HIGH
FREE TIMES AND INTERESTS	CULTURALLY VERY ACTIVE
MODEL OF CONSUMPTION	THEY ARE EMOTIONAL, BECAUSE THEY BUY WITH IMPULSE. THEY HAVE ATTENTION TO THE NEW THINGS : IF AN INNOVATIVE PRODUCT COMES OUT, THEY ARE ATTRACTED TO IT. THE CONSUMPTION IS DISTRACTED AND NOT ORGANIZED
NEEDS	KEEPING IN MIND MASLOW'S PYRAMID, THEIR NEEDS CAN BE TRACED BACK TO SOCIAL NEEDS (SELF-ESTEEM, SELF-CONTROL, SELF- REALIZATION , MUTUAL RESPECT) AND TO THE OWN NEEDS (MORALITY, CREATIVITY, SPONTANEITY, ACCEPTANCE, ABSENCE OF PREJUDICES)

ADULT PEOPLE (25-50)

INCOME	MEDIUM- LOW
VALUES	THEY ARE DESIGNED BOTH CULTURALLY AND PROFESSIONALLY. FOR WOMEN ARE THERE IS A GREATER INTEREST IN CULTURAL FORMS (OF WHICH FANDOM AND MERCHANDISING). COMPARED TO MEN, PROFESSIONAL PLANNING IS VERY STRONG
UTENZA DEI MEZZI	THERE IS AN HIGH ATTENTION TO THE ADVERTISING, THE ATTITUDE IS POSITIVE, PEOPLE LIKE IT AND HAVE FUN"
FREE TIMES AND INTERESTS	THEY HAVE A DIVERSIFIED AND GENERALIZED INTEREST, THEREFORE, THEY ARE ALSO INCLINED TO FOLLOW CULTURAL EVENTS (SHOWS, LIVE EVENTS, EXHIBITIONS)
MODEL OF CONSUMPTION	THE PURCHASE HAS AN IMPULSIVE ATTITUDE . PEOPLE LOVE TO SWITCH BRANDS AND TEST ALTERNATIVE PRODUCTS. GENERALLY, THEY BUY ONLY IN THE BEST STORES, THEREFORE, THE NBC STORE, BEING OFFICIAL, CAN BE ATTRACTIVE FOR THEM. OTHER IMPORTANT THING IS THAT, THEY DONT' PAY ATTENTION TO THE PRICE
NEEDS	KEEPING IN MIND THE MASLOW'S PYRAMID,PEOPLE'S NEEDS CAN BE TRACED BACK TO THE SOCIAL NEEDS LINKED TO THEIR MEMBERSHIP

We asked ourselves a question: where the most of the international tourists who visit New York come from?

1. **Canada;**
2. **UK;**
3. **Francia.**

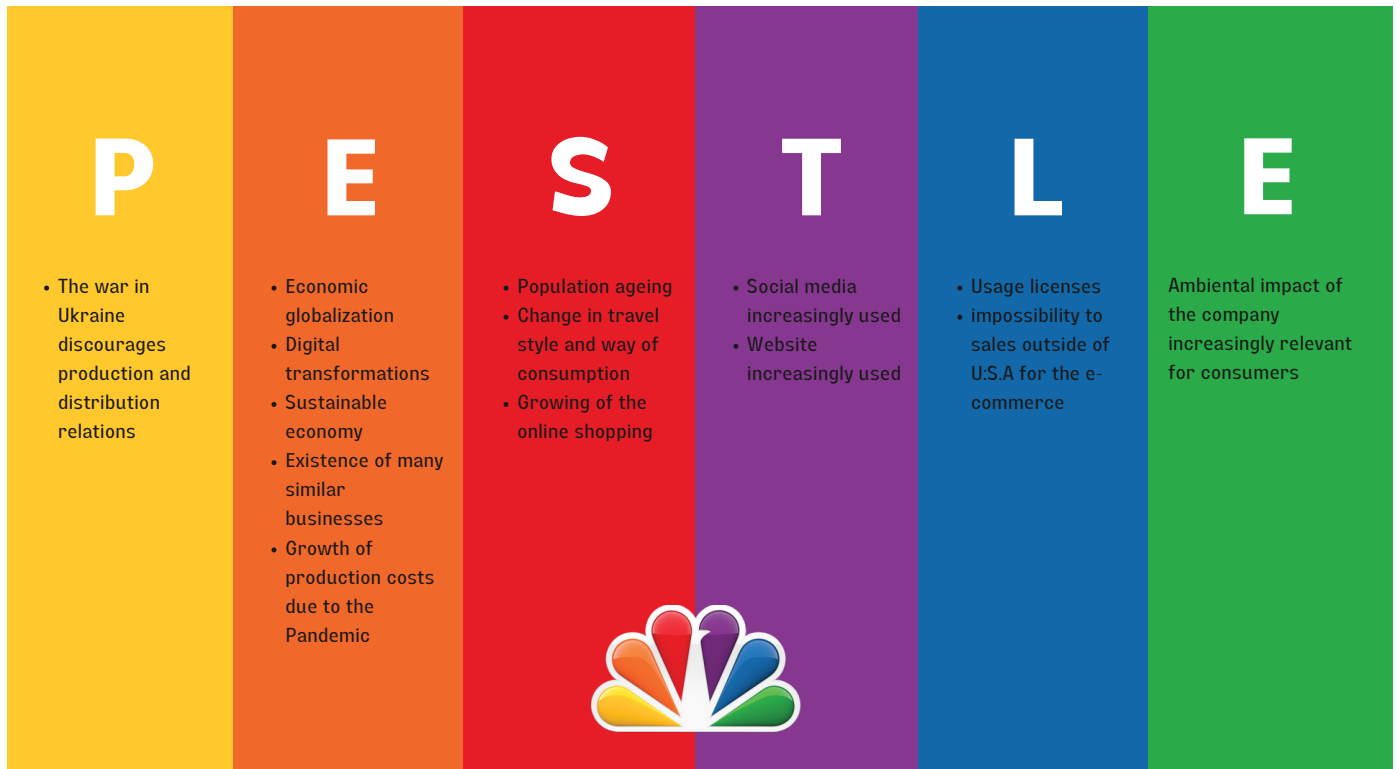

These are the three most interesting markets to bet on; it's not a casualty that the only exception in the competitors' e-commerce is in this country. Tourists from the United States are, however, the largest number.

COUNTRY	2021 VOLUME	2022 VOLUME	2023 VOLUME
Canada	220	816	944
UK	127	751	1070
France	90	515	739
Brazil	83	479	587
China	74	438	856
Mexico	298	376	458

4. PESTLE

To have a more complete view, we have done an analysis of the exogenous environment relevant to the business.

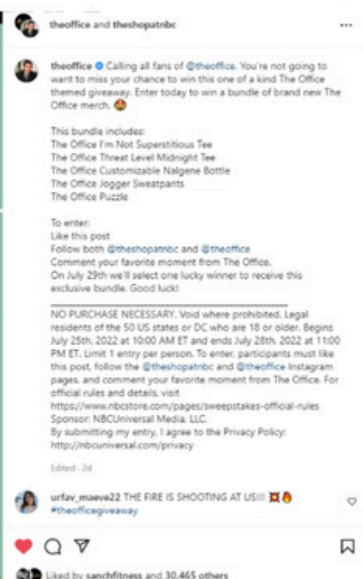

5.

STRATEGIES ADOPTED BY NBC STORE

The strategies currently adopted by NBC Store are attributable to:

- social media ads;
- display ads;
- SEO;
- giveaways;
- promotions.

6.

COMPETITORS

In our competitor analysis we have found for both the goals (ecommerce and shop) **Point of Difference** and **Point of Parity**. We decided to do that because we wanted to immediately find the NBC's competitive advantage in order to make our future strategies.

Direct and indirect e-commerce competitors:

POD'S

- Shipping abroad
- Same products for lesser price
- Free shipping
- More Awareness than NBC
- Presence of different product category (Amazon, Wish, Aliexpress)

POP'S

- High quality products
- Rich catalog of products related to distributed shows and TV series
- Partnerships with established brands
- Unable to ship outside of America (ABC store and PBS store only)

Direct competitors and indirect physical shops:

POD'S

- Attractive destination for families
- Sale of products involves both children and adults
- Large turnout of tourists
- More products awareness
- Strategic positioning stores in New York

POP'S

- Products and Souvenirs for tourists and residents
- Engaging experience offered by the store
- Price range

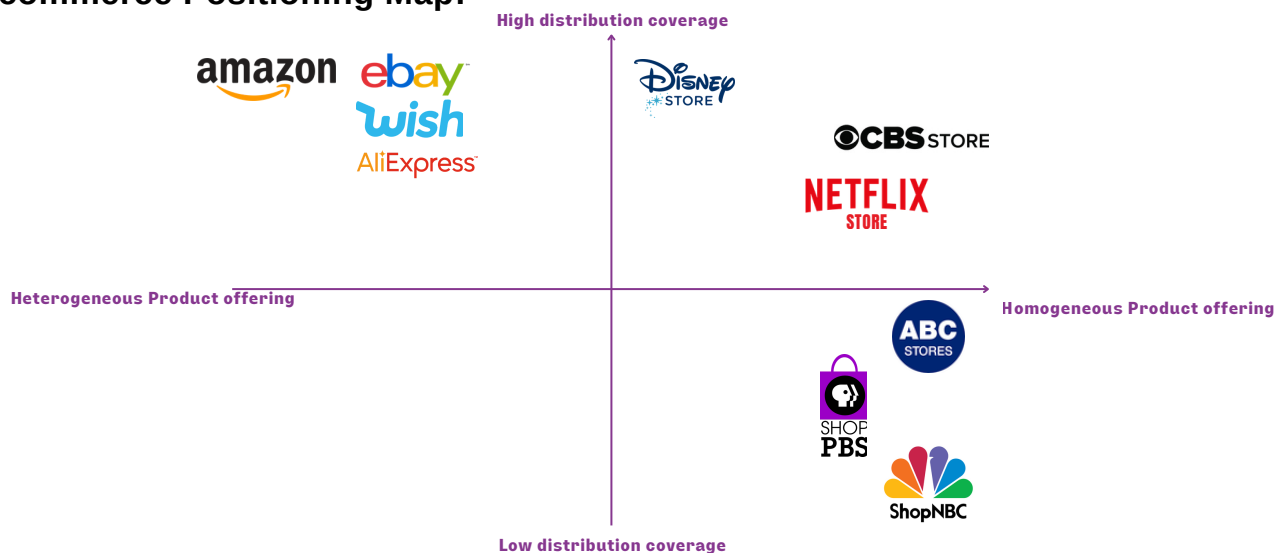

After the analysis on competitors, what emerged is the disadvantage, for the e-commerce of NBC shop, of not selling outside America. Compared, on the other hand, to the physical shop, the biggest disadvantage is the unfunctional geographical location of the NBC store: unlike competitors, it is not very visible in the eyes of tourists, as it is located inside the Rockefeller Center, rather than on the street, where millions of people walk every day. As for the tie points, we found that NBC meets the core needs of the competing product.

7.

POSITIONING MAP

From competitors analysis, we have built two competitive positioning maps. For the e-commerce map, we have chosen the variables 'distributive coverage' and 'heagenic product offering'. The first variable is useful to get an overview of distribution coverage in the various countries. The second variable allows you to identify the type of products available, i.e. whether the shop has a variety of products specific and / or exclusive to the brand or heterogenic. For the map compared to the physical shop, we have chosen the variables 'strategic location of the shop' and 'New York's 'souvenir' product offer'. The first variable concerns the geographical visibility of the physical shop. The second variable is, on the other hand, understood as the possibility of buying a product that can act as a souvenir and, therefore, as a unique memory of the city of New York.

We carried out a comparative analysis of the actions carried out by the main competitors at a local, national and international level, and on the basis of the data that emerged from the table we built the positioning map of NBC with respect to its competitors:

This analysis showed that all companies are attentive to CSR (some more than others). The metaphor that best expresses how all these companies behave in terms of digital corporate communications is the **sounding board**. We can deduce the hypothesis that this is a problem of the sector.

8.

SWOT ANALYSIS

NBC, acronym for "National Broadcasting Company", is an American radio and television company founded in 1926, whose headquarters are in New York. NBC is the longest operating broadcaster in the U.S.A. The company is part of the traditional "Big 3" of American television networks.

We will perform a SWOT analysis related to NBC, which will provide us with data to shape the final analysis for the shop.

SWOT NBC:

S = awareness; infrastructure (through the network, 88.9% of households in the entire U.S. are reached. NBC has 12 owned stations and is awaiting affiliation agreements with 223 additional television stations in all fifty U.S. states); international broadcast (its shows and programs are broadcast in almost every country in the world); circular economy (NBC is a multinational company: their revenues are in the billions and therefore they have a good profit margin that allows them to have sufficient resources to expand their business); excellent international reputation (operating since 1926, NBC has had the opportunity to build a solid network, consisting of partnerships and acquisitions of large companies); strong network distribution (they have a strong network distribution that allows them to produce content of different genres such as news, sports, entertainment).

W = age of the target (their target is mainly made up of adults and groupings, above all, the category between 15-35 years old); organizational structure (NBC's organizational structure is compatible with their current business model: it has limitations regarding expansion into different market segments); keep up with the changing Trends (being an international mass media company, they have to adjust their behaviors according to the local market where it should); depends too much on advertising.

O = new markets (this is a huge opportunity for NBC, as there are always new markets opening up); growing economy (the growing economy brings new customers to NBC. The latter can be acquired thanks to a good strategy); international growth (as a multinational company, NBC is constantly looking for new markets to grow internationally. For example, they have a huge stake in India and Latin America).

T = strong competition (one of the biggest competitors is, for example, Netflix, as it has enormous popularity, is the largest streaming platform and is also easy to use); online platforms (one of the biggest threats to the broadcaster is the online platform, as many users prefer online platforms to television); criticism and controversy (the NBC television network has been accused of tolerating a culture of sexism and sexual harassment among its employees and, moreover, of protecting the mistakes made by important company figures); changes in policies (they have an international market, therefore, if a government changes its policies it must change them according to the cause of the respective country).

Strengths • Awareness • Infrastructure • International broadcast • Circular economy • Excellent international reputation • Strong network distribution	 S W	Weaknesses • Target age • Organizational structure • Keep up with evolving trends • It depends too much on advertising
Opportunities • New markets • Growing economy • International growth	O T	Threats • Fierce competition • Online platforms • Criticisms and controversies • Changes in Policies

SWOT NBC Store:

Strengths • Product variety • Merch of programs / TV series loved by the public • NBC studios tour with final visit to the shop • E-commerce site to buy from home • Collaborations with established brands • Competitive price positioning	 S W	Weaknesses • Brand Image NBC shop weak • Positioning and number of physical shops • Dispersive e-commerce site • Little product innovation • Ineffective communication • Low physical shop promotion • Non-exclusive licenses on all products • Merch similar to that of competitors • E-commerce cannot sell overseas • NBC studios is not part of the main tourist destinations
Opportunities • Use NBC awareness to promote the store • Improve web browsing • Partnerships with companies known by tourists back home • Use of programs, hosts, guests and actors to promote products, the physical shop and online • Exploiting the homogeneity of competitors' products to diversify • Increase awareness through advertising bells	O T	Threats • Strong competition and ability to buy similar products from competitors • Slow recovery of tourism after flight restrictions • Change in consumption style

The SWOT analysis performed on the shop revealed that the most relevant strength is the fact that the entire merchandising is based on programs and TV series loved and followed by the public from home. All products are presented with a competitive price positioning. On the other hand, however, the weaknesses are also different: first of all, the brand image of the NBC Store is weak. Furthermore, the communication and promotion of the shop are not very effective. In this regard, the opportunities for the shop are among the most varied: using NBC's already high awareness to promote the store is one that would bring immediate results. Finally, among the threats, the strong competition should be kept an eye on.

9. PLANNING

9.1 MACRO GOALS

CORPORATE

- Improve awareness

MARKETING

- Rise the number of customers of the physical shop, that is located inside Rockfeller centre
- Increase the traffic and the knowledge of e-commerce.

9.2 MICRO GOALS

- Show the nbc to adult tourists that are in target
- Reach participation and engagement instead of simple involvement

- Increase the notoriety of the physical shop for tourists, newyorkers and fans
- Increase the notoriety of e-commerce for the americans citizens.

CORPORATE

- STORYTELLING OF CORPORATE
- TOUR AT NBC STUDIOS
- EPROMOTIONAL EVENT WITH TRAVEL AGENCY
- CAMPAING OF DIGITAL CORPORATE COMMUNICATION TO CONVEY THE CORPORATE PERSONALITY AND IDENTITY OF NBC

MARKETING

- TREASURE HUNT WITH INFLUENCERS AND MICRO-INFLUENCERS
- PROMOTION OF PHYSICAL SHOP WITH OOH ADV
- TOUR AT THE NBC STUDIOS
- PROMOTION OF PRODUCTS BY THE GUESTS OF THE SHOW

CORPORATE

CORPORATE STORYTELLING

TITOLO: *"Make the history with US"*

OBIETTIVO: Increase awareness of NBC for tourists, convey the values that have marked this company since its foundation. To enhance the company culture it will be used the "Heritage" process by combining American culture with NBC culture.

TARGET: Foreign tourists and fans

SOCIAL MEDIA SCELTO: Facebook, Youtube

MEDIA TRADIZIONALE SCELTO: Times Square screens

STRUTTURA: *Make the history with US* will be divided into three episodes, which remember highlights of the history of NBC and the United States. The timing will be between 00:45 seconds and 00:60 seconds. The three episodes are divided into: past, present and future. The first episode will concern the 60s and will try to convey the value of inclusiveness, the second episode is set in the present day and will try to promote change to create new opportunities, the third episode is set in the future where the individual is prodded to be the protagonist of the story himself, the value conveyed is NBC's core value, "inspiration", to create conversations and mobilize its audience to action to build a better world together.

CORPORATE

CORPORATE STORYTELLING

EPISODIO UNO: *"Brought to You in Living Color"*

Early 70s setting. Everything is in black and white. Ateenager lives in a traditional, very protective family that suffocates his ambitions. Until one day he sees a crowd of protesters (a reference to the counterculture), who are the only ones to be colored and from there he is so impressed that he wants to be part of it (also he becomes colored). After that the scene changes and on his way home he sits down and turns on the TV where the colored peacock appears and the parents stop to look at him curiously. Finally, the title "Brought to you living color" appears.

EPISODIO DUE: *"Embracing Change"*

The teenage boy has grown up (although he should be 60 I would leave him quite young up to 40) and now he lives in New York here he has his life. On his way back from work he stops in a bar where he meets a black woman. While they are talking, she takes an alcoholic drink and he doesn't (this is how the change is referred to, because according to the stereotype the man takes alcoholic drinks more often and the woman doesn't) they get to know each other and decide to meet again at the girl's house and when they turn on the TV the peacock appears with the writing embracing change.

EPISODIO TRE: *"Back to the future"*

A few years after their meeting they live together and while they are at home they decide to go for a walk. They pass through Times Square and while they are there an NBC advertisement passes where they review their life made up of the past up to a future with children, there are also couple scenes as if it were an advertisement for an American series. So after all that they go away happy and there is the writing #makethehistory with us.

THE TOUR AT NBC STUDIOS

The NBC Tour consists of a guided visit inside the Rockefeller Center in New York through the various studios that we find in the building. The tour will take place in small groups led by an NBC guide. The experience that we want to sell includes a journey through the history of NBC, you will pass through the corridors where the most representative images of these 96 years of history are found, you will enter the sets of Saturday Night Live, The Tonight Show Starring Jimmy Fallon, Late Night with Seth Meyers... The tour will end with an interactive experience, where attendees can produce and star in their own show. The NBC tour is currently interrupted, we have decided to relaunch it for this summer 2023 by adding new technologies (such as VR and AR) and supporting the launch with a digital corporate communication campaign (storytelling) and partnerships with travel agencies.

PARTNERSHIP WITH TRAVEL AGENCY

To promote the Tour among tourists, partnerships will be made with the best travel agencies in Canada, UK, France, Brazil, China, Mexico, Australia, Germany, Italy and Spain (from the data these are the most interesting markets to focus on). Also will be identified travel agencies in New York and we don't exclude partnerships with travel agencies that have testimonials/influencers able to promote the tour themselves on their social channels (for example Piero Armenti with "My trip to New York" for Italy). Examples of agencies to contact that share the same values as NBC and are in line with the target are:

ACTIONS FEASIBILITY

The storytelling production will be the most expensive action, because in addition to the costs for the production and the editing, we will have to add the costs for the promotion. Even though, we think this is a feasible action and necessary to support all our future actions.

The event will require synergic and organizational ability from the staff, but its realization will not be difficult.

The tour at the NBC studios was already used in the past so it's easily replicable.

MARKETING

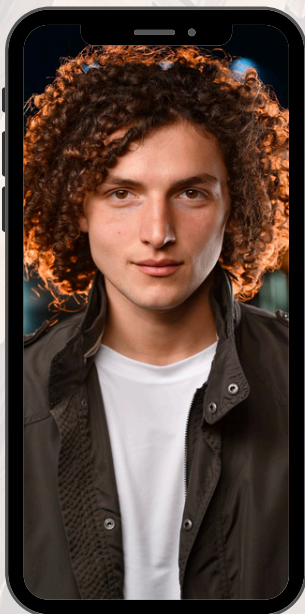

TREASURE HUNT

To increase the traffic of people to the brick and mortar Shop we create an hunting game in New York City with selected influencers based on the target and their community. They will be playing in team with some of their followers (or maybe all their social media community can help them during the game from home!).

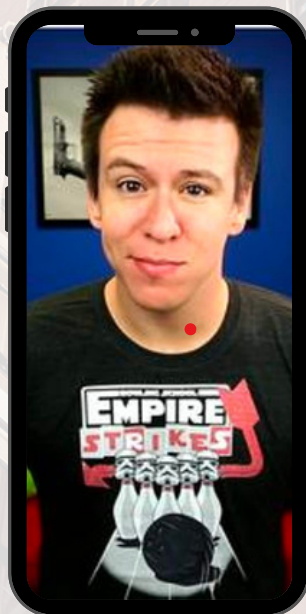

The game it's about a "peackooc hunt" with the final stop at the NBC shop. The aim of the game is to find the QRcode around the City. The QRcode to find will be six and they will shape the NBC logo.

The official NBC instagram page will give the first Clue, while the other clues will be unlock from the various QRcode.

The place that we will use for the hunt will be important places for the company history and touristic places.

@dontpanicmassi

@PhillyD

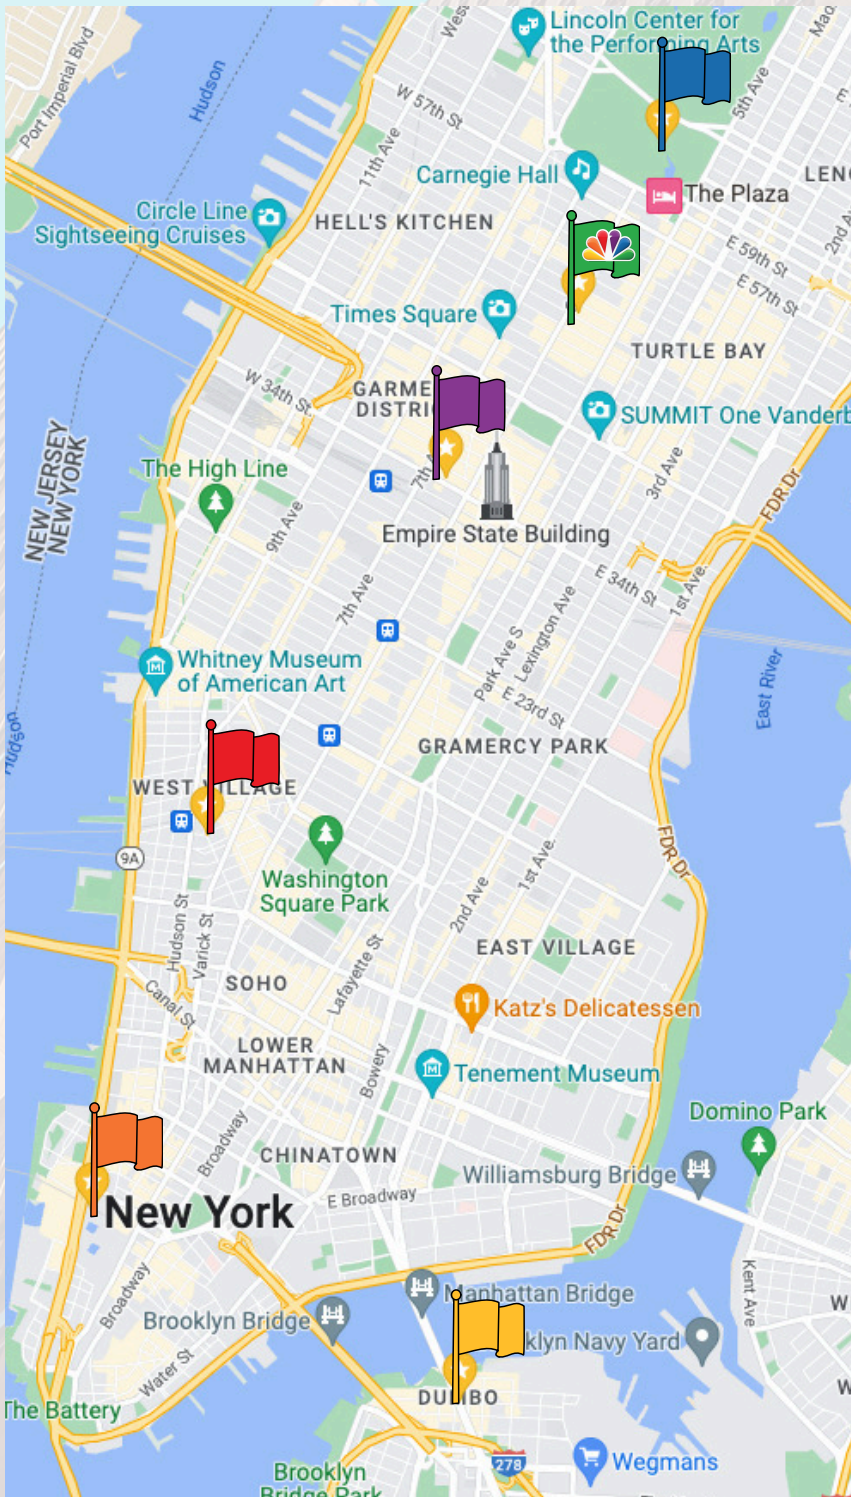

These are some examples of influencer and micro-influencer you have to look for.

We propose to NBC to use influencer

To increase the traffic of people on the e-commerce site we thought to use the show guest of: Saturday Night Live, The Tonight Show Starring Jimmy Fallon, Late Night with Seth Meyers.

At the end of the episode we will ask to the Guest to advertise on their social media by the hashtag #adv a product that the shop will give them.

To increase the exposure it will be important to mention the official page @theshopatnbc. From the IG page will be possible for the user to go into the e-commerce.

ACTIONS FEASIBILITY

The treasure hunt will be the most expensive action in terms of energy and money. The treasure hunt imply a good coordination with the selected influencers, because to have success the influencers have to be able to create good contents for the company. We think that with the budget that we have this action it's still feasible. Just as the e-commerce exposure with the show's guest, and the OOH adv. The promotion with the nbcShop social media doesn't need a lot of investment so it's possible.

A low-angle, upward-looking photograph of a bronze statue of Prometheus, a figure from Greek mythology, standing on a tall, rectangular stone pedestal. The statue is depicted with its wings spread wide, holding a torch aloft in its right hand. Above the statue's head is a large, dark metal structure consisting of several interlocking rings, resembling a model of celestial orbits or a complex mechanical framework. In the background, a very tall, slender skyscraper with many windows rises vertically towards a clear blue sky with a few wispy clouds. The surrounding buildings are made of light-colored stone or concrete, with numerous windows visible. The overall perspective creates a sense of height and grandeur.

An aerial photograph of the New York City skyline at sunset. The sky is a gradient of orange, red, and blue. The Empire State Building is the central focus, with its spire reaching towards the top of the frame. Other skyscrapers are visible in the background, and the city lights are beginning to glow. The water of the harbor is visible on the right side.

12. CONCLUSIONS

12. expected results

Starting from the objectives given to us by NBC, we have proposed a series of actions to develop a Corporate part to increase the Marketing actions.

We have proposed:

- A **"corporate storytelling"**: we expect that thanks to this there will be an increase in corporate awareness and reputation.
- Organizing an **event** to demonstrate a company's excellence with travel agencies; we expect that thanks to them they can build relationships with commercial ends.
- Relaunch of the **Tour at the NBC studios** and the accompanying tale of values; to obtain an increase in corporate reputation and generate co-creation and interaction with users.
- The **"Treasure Hunt"** to obtain an increase in awareness in the long term and to increase the flow of people in the physical shop.
- The promotion of products through the **guests of the shows**, to increase the traffic of people passing through e-commerce.
- **OOH Advertising** to advertise the physical shop and thus increase the number of people therein.
- **Promotion of the Tour on social media** with "discount" operations to increase attendance in the physical store and awareness.

With the monitoring actions that we proposed, the agency will be able to evaluate the efficacy of the actions that we thought until the end of the 12 months.

We have also estimated how much the share of people who will pass through the shop will increase compared to the data for 2022 (97.4k); we estimate that as a result of our actions there will be an increase of between 3-5%.

12.1 CONCLUSIONS

There are some limits, like the different culture and data availability, but we think and we hope that the expected results can be fully realized.

there was a good teamwork. We all worked together in order to carry out the analysis and planning of the work correctly.

The biggest problem that emerged from the analysis was that people don't know the NBC store inside the Rockefeller Center and they don't know the website on the internet. For that reason we choose some actions that may can increase the awareness in the shop, trying to use marketing and corporate strategies.

Another fact that emerged from the analysis is that in communication on social media, NBC adopts the metaphor of the "sounding board", for this reason we have tried to stimulate the pro-activity of users through Treasure Hunt's mktg mix operation. This will not involve passing from one metaphor to another but will encourage forms of engagement.
